Health, Wellness and Chiropractic Care

Throughout life, stresses and traumatic events can damage the spine and nerve system. These stresses may be PHYSICAL, CHEMICAL, or EMOTIONAL in nature. Understanding the PHYSICAL, CHEMICAL, or EMOTIONAL stresses that have acted upon your spine and nerve system assists us in serving you. Please answer the following questions as accurately and completely as possible.

History of Physical Stresses (Birth to Present)

Birth Stress

Research indicates that the birth process can cause trauma to a baby's spine and nerve system. Please indicate to the best of your recollection how you were birthed:

Terms and Consent to Care

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective. It is important that each patient understand both the objective and the method that will be able to attain it. This will prevent any confusion or disappointment.

The objective of chiropractic health care in this office is ***to improve and optimize the health and wellbeing of the spine and nerve system through the correction of Vertebral Subluxations.***

Vertebral Subluxation: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

Our chiropractic method of correction of a vertebral subluxation is by specific adjustments of the spine. An adjustment is the specific application of forces made by hand or with an adjusting instrument.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal evaluation, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area. Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others.

I, _____ have read and fully understand the above. (print name)

Outcomes and options relative to care have been discussed and noted. All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction.

I therefore accept chiropractic care on this basis.
